- Pop-up blockers will need to be deactivated for Sparkito to work properly.

For Ipad, download the app called Puffin to open Sparkito. 

Additional Information about Sparkito ESS!

It is recommended to repeat each story, song or tutorial for 5 days. This process helps to develop the neurological network to enhance learning due to the multisensory stimuli. Students will be repeating more each day, thereby building long-term memory.

Language Arts has a special section for “Fonética de Español”(Spanish Phonics) that it is only available in Spanish. It has animated syllables, words containing these syllables, and activities to help in the reading and writing process.

The music content is design to learn some aspects of music, concerts, and recognize the different musical instruments. Through music, students may learn syllables or tempo of language using Words and Rhythm. Try the music activities to develop different learning skills.
